Mail the Right **Neighbors**

Every piece in this section mails to a purchased list, not to patients, so no patient data is involved. Choose who gets it, choose the pieces, and we print and mail.

1 **Pick who gets it**
A list of households by move date, distance, ZIP code, or demographics.

2 **Pick the pieces**
Any postcard size or letter from the practice's specialty, set in its brand.

3 **We print and mail**
One mailing or a series, on the schedule the office chooses.

One list we don't build: anything based on a health condition. A card that arrives because of a diagnosis can reveal it to anyone who sees the mail. Every piece here speaks to everyone on the list the same way, so it never hints at anyone's health.
